

To clear up a few issues before you proceed, please READ ALL of the following:

The Challenges are un-supported. There will be no back up and teams are expected to help each other in times of need. Teams are expected to plan their trip with the help of the roadbook supplied, getting the necessary inoculations, visas, insurance, hotel, ferry and flight bookings where appropriate.

The Challenge IS NOT A RACE! Despite many years of the Challenge running, people still appear not to understand this aspect. There are NO benefits to arriving anywhere first (except maybe to grab the best camping spot). There are no points or prizes or status associated with being fastest over any section of the journey. Racing on public highways is illegal in most countries. Stay safe, stay within the speed limits as determined by the locality.

For the purpose of the Challenge, a "TEAM" is defined as ONE VEHICLE and its 2 occupants. You may fill your car with more people at no extra cost but any free hotel accommodation is only for the 2 names on the application form/website.

All correspondence will be sent to the first contact of each team. Email is the primary form of communication used to inform and organise, and the "Primary Contact" named on the application form must endeavour to maintain a reliable email account, with sufficient in-box capacity.

We have a privacy and data protection policy. However, please note that your email address and mobile number will be passed to all other teams in your group so you can communicate with each other during the Challenge.

At times, successful applicants have to drop out. Sadly, we never refund fees but we MAY permit you to defer to another year or challenge, if you ask nicely!

As well as all the costs related to your vehicle, fuel, food, camping, inoculations, malaria protection, border crossings, flights home, etc. there is also a fee to pay. The fee entitles you to the following, as applicable to the specific Challenge:

- A member of the WhatsApp group for everyone travelling at the same time
- One paperback issue book by a previous participant (Banjul and Timbuktu only)
- Exclusive PDC 'road-book' including guidance notes
- Official PDC car stickers and entry numbers
- Support on the Morocco/Mauritania border, hopefully including the payment of all bribes and car insurance costs
- Discounted flights home on specific Gambia Experience routes (Banjul Challenge only)
- Behind the scenes administration to try and smooth passage through Mauritania, Senegal and The Gambia (no guarantees of success, however!)
- Behind the scenes international liaison with partners and coordinators who allow this event to take place.
- Inclusion within the lists of participants that are issued to the officials of some of the countries en route.
